

DIGITAL LOTO PROGRAM · OSHA 1910.147

Every machine. Its own procedure. One scan away.

Tegis Safety replaces paper lockout binders with one live procedure library. **Write** machine-specific procedures, **approve** them, and **put them at the machine** with a QR code any phone can open, on every shift, for every contractor.

- ✓ Opens in any phone browser. No app, no login to read.
- ✓ The QR code always opens the current approved version.
- ✓ One-click PDF per asset for audits and offline use.

0

apps to install. Technicians scan with the phone they already carry.

\$0

per-user fees. Every operator, shift, and contractor can read.

10

procedures free, forever. Create an account and start today.

17

energy types built in, from 480 V AC to steam and radiation.

WHAT'S INCLUDED ON EVERY PLAN

Write it, approve it, tag it, prove it

Guided procedure builder

Scope, shutdown, energy sources, isolation, PPE, verification, and restart, in the same order every time.

Photos at isolation points

Disconnect, valve, and breaker photos on the exact step that names them.

Print your own QR labels

Standard or thermal printers, no charge. Relink a label anytime when equipment changes.

Roles & approvals

Drafts stay hidden until approved. Sign-off is recorded by name, not remembered.

Shared steps stay in sync

Update a shared isolation step once and every affected procedure and PDF follows.

Multi-site organization

Company, site, asset. Each plant sees its own equipment; EHS sees everything.

17 energy types

Each with its own icon, unit, and tag prefix.

PAPER BINDERS VS. TEGIS

Getting the right procedure to the machine is the hard part.

	WITH PAPER BINDERS	WITH TEGIS SAFETY
Finding it	✗ Walk to the office and search the binder	✓ Scan the QR code on the machine itself
Right version	✗ Old printouts linger on the floor	✓ Every scan opens the approved version
Isolation points	✗ Breaker numbers live in someone's head	✓ Photos sit on the step that names them
Making changes	✗ Reprint and redistribute the binder	✓ Edit once; the QR code and PDF follow
Audit requests	✗ Assemble a binder the night before	✓ Per-asset PDF, one export away
Night shift	✗ Call EHS, or go without	✓ Open it on any phone, no account needed

SIMPLE, PUBLISHED PRICING

Start free. Scale by procedures and sites.

Free \$0 forever 10 LOTO procedures 1 site	Starter \$80 / month 250 LOTO procedures 2 sites	Pro \$300 / month 1,000 LOTO procedures 5 sites	Enterprise Custom 1,000+ procedures 5+ sites Annual invoicing
---	---	--	---

✓ Unlimited users
 ✓ No per-seat fees
 ✓ QR scanning
 ✓ PDF export
 ✓ Approval workflow

Need your procedures written?

A Tegis partner walks your equipment, documents each energy source and isolation point with photos, and writes the procedures into a workspace your facility owns.

Safety consultant?

\$10 per client procedure

Activates one procedure for 10 years, including continued editing. Separate from monthly plans.

Start with one machine.

Book a walkthrough with your own equipment, ask about a multi-site rollout, or create a free account today.
